PROFESSIONAL EXPERIENCE

MERN Full Stack Intern | **Maticz Technologies Pvt Ltd** - Madurai, Tamilnadu

Dec 2025 – Jan 2026

- Developed full-stack web applications using React.js and Node.js, following MVC architecture built secure REST APIs with Express.js and MongoDB and implemented JWT-based authentication and protected routes.

Project: E-COMMERCE

Tech Stack: MongoDB Atlas, Express.js, React.js, Redux, Node.js, JWT, Nodemailer, OAuth

Deployment: Vercel (Frontend) | Render (Backend)

Deployment Link: mern-ecommerce

Description: A scalable MERN stack e-commerce platform developed using MongoDB, Express.js, React.js, and Node.js. The application supports user authentication, product browsing, cart management, order placement, and secure checkout. It includes an admin dashboard for managing products, users, and orders, with a fully responsive UI optimized for performance and usability.

Assistant Business Manager | **Shriram Finance Ltd** - Madurai, Tamilnadu

Aug 2023 – Feb 2025

- Implemented customer-centric strategies to increase customer satisfaction and foster long-term customer retention. By prioritizing customer needs and feedback, I contributed to increased revenue and profitability for the company.

Process Associate | **Solartis Technology Services Pvt Ltd** - Madurai, Tamilnadu

Apr 2021 – Jul 2022

- Played a key role in maintaining data integrity by conducting regular audits and checks on data entry and processing tasks, identifying and rectifying any errors or inconsistencies.

PERSONAL PROJECTS

Car Rental Website | [Link](#)

[github.com/Car-Rental-Website](#)

- Developed online car reservations through conventional user-friendly services and prioritizes user experience, offering a seamless and intuitive interface for effortless navigation and booking.

Tools Used: React.js, Tailwind CSS

Food Delivery Website | [Link](#)

[github.com/Food-Delivery](#)

- Developed a comprehensive platform for food ordering and delivery website to connect customers with a diverse array of restaurants and cuisines to simplifying the process of finding their desired meals.

Tools Used: React.js, CSS

Personal Portfolio | [Link](#)

[github.com/Personal-Portfolio](#)

- A full-stack personal portfolio built using the MERN stack (MongoDB, Express.js, React.js, Node.js) to present professional skills, projects, certifications, and experience. The application features a responsive React frontend with smooth animations, a secure backend for contact management, resume downloads, and email notifications, following scalable and maintainable architecture.

Tools Used: React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, JWT
